## NEW WATER DISTRICT

### IMPORTANT MEETING HELD TO SECURE WATER PRIVILEGES

There was an important meeting Saturday night at the home of James Connor, corner of Kenneth Road and Pacific Avenue, which was largely attended by property owners of that neighborhood. As announced in the Evening News recently the city plans to extend full water service for domestic use and irrigation to districts asking for it, when the people of such territory combine and form a bonding district and declare for annexation to the City of Glendale. Such a district would be bonded to pay for the installation of a distribution system, the city putting in the supply main. Then the property owners of the district would pay the interest on the bonds sold to provide funds to put in the distributing system until the revenues amounted to enough to take care of this interest and retire the bonds as they mature. To form such a district was the purpose of Saturday night's meeting and sentiment in favor of the plan was practically unanimous. A committee composed of Frank Olmstead, chairman, Dan Campbell, Alex Mitchell, Mattison B. Jones and M. Z. Valentine was appointed to look into the matter and they report at a subsequent meeting to be called by them.

The city is to put in a sixteen-inch water main all the way up Grand View Avenue and all the distributing systems for new water districts and for residents of districts already annexed will be supplied with water from this main.

### TRIVIAL CALLS FOR POLICE

It is remarkable as well as amusing the varied requests that are turned in at the Glendale police headquarters. In each case the chief or one of the officers goes to the place to investigate, no matter in what part of the city it may be. Recent calls noted were one to dislodge a stray cat from the top of a telephone pole where it was making too much noise to suit the neighbors; another to silence a barking dog, another to corral a stray horse, and one to retrieve a straying goat. Recently a peremptory call to hurry to the scene of a dangerous altercation caused the chief to put handcuffs and revolver in his pockets and speed to the danger point, only to find that a landlady and her tenant were quarreling over a difference regarding a rent payment.

### SORORITY ENTERTAINED

Miss Esther Schremp recently entertained members of her sorority in the Southern Branch of the University of California for a business session at her home at 342 West Broadway. Following the business deliberations the hostess served refreshments. Miss Marcella Miller, of this city, who is also a member of the sorority, and about twenty-five other young women from Los Angeles and vicinity were present.

## GO TO WASHINGTON

### MISS KINCH JOURNEYS NORTH WITH FATHER TO WED DR. GRESHAM OF SPOKANE

S. C. Kinch of 328 North Brand Boulevard, accompanied by his daughter, Miss Franc Kinch, is leaving April 1st for Spokane, Washington, where he has business interests and where it is necessary for him to do some building in the improvement of farm property he owns in that state. He expects to be gone until fall.

The wedding of Miss Kinch to her fiancé, Dr. William Gresham, of Spokane, will take place in June and they will make their home in that city. She is so much attached to Glendale, however, that she declares she will never rest until she has persuaded Dr. Gresham to transfer his residence and business to this city. She has made many friends here whose good wishes will attend her and by whom she will be much missed.

Mr. Kinch has rented his house at 328 North Brand Boulevard, furnished, for one year, to Edw. Turner of Hollywood, a jewelry salesman who is very much pleased with Glendale and who is planning during his residence here to look around and buy property for a permanent home.

**WEATHER FORECAST:** Fair to night and Wednesday. Rising temperatures Wednesday.

## SHOW ESTATES

### MR. BARTON REPORTS GREAT DEVELOPMENT IN PROGRESS NEAR SANTA BARBARA

A. A. Barton of this city, who is a manufacturer and dealer in equipment for private pumping plants, made a hurry-up automobile trip for combined business and pleasure to Santa Barbara last Saturday on which he was accompanied by Mrs. Barton. They say that never in all their journeyings have they seen the country so lovely as it is now, the recent rains having brought vegetation forward, particularly the flowers, in a wonderful manner. They traveled 260 miles in the one day, getting back to Glendale Saturday night, and also had time to transact some business in the neighborhood of Santa Barbara, where many fine new show places are being developed. Mr. Barton is building five pumping plants for the irrigation of such estates, varying in size from 20 to 60 acres, all of which are being beautified with orchards, with ornamental trees and shrubberies and with flower plantations. Mr. Barton thinks development along this line is more marked around Santa Barbara than it is in Los Angeles county, although in some regards natural conditions are more favorable here. They had the pleasure of dining at the fashionable resort, Shepherd's Inn, just out of Santa Barbara.

### FUNERAL OF EDWIN R. WILBUR

Funeral services over the remains of Edwin R. Wilbur, a veteran of the Civil War, were conducted by Chaplain C. R. Norton, Sunday afternoon at the late residence of deceased at 506 West California Avenue. Only the immediate family and close friends were present. The theme of Rev. Norton's address was: "Our Duty to Each Other," and the life of his dead comrade as a valiant soldier, was used to illustrate and emphasize his text. The body was cremated Monday and the ashes interred at Forest Lawn Memorial Park.

### GOOD NEWS FROM JOHN W. SHARPE

Mrs. John Sharpe of 109 West Lomita Avenue, who has been for several weeks nursing her husband in Indianapolis, Ind., where he was stricken with a supposed fatal disease affecting the nerves, and producing a sort of paralysis, wrote home last week the first hopeful letter since her arrival at her husband's bedside. She said he was able to lie down occasionally, instead of maintaining a rigid sitting posture constantly as had been his condition for many weeks, and the doctors now hold out hopes of his recovery but say he will never be strong again.

## A DEN OF PLEASURE

### MR. AND MRS. ROBERT SULLIVAN ENTERTAIN FOR GUESTS FROM NEW YORK

Mr. and Mrs. Robert Sullivan of Central Avenue entertained Saturday evening in honor of Mrs. Woodruff and her daughter, Mrs. Kosley, of New York City, the sister and niece of Mrs. D. Ripley Jackson of East Chestnut Street, who have been her house guests for the winter, and who are leaving for their Eastern home Wednesday, designating their party as "a den of pleasure."

The party was also utilized to celebrate the birthday of Mrs. Sullivan, who received many handsome gifts. Her home was beautifully decorated according to a green and white color scheme, white iris being used in the living room and purple lilacs in the dining room.

Dancing was the diversion of the evening and there were also some vocal numbers, Mr. Jackson singing "Acushla," and Mrs. Mabel Campbell "Kentucky Days." Mr. Jackson's famous "Barnyard Quartette" also gave several selections. Dainty refreshments were served at 11 p. m.

The guest list included: Mrs. Woodruff and daughter, Mrs. Kosley, Mr. and Mrs. D. Ripley Jackson and son, Kenneth Jackson, Mrs. Brandis of New York, Mesdames Spruill, Hunt and Wilson, Misses Dorothy Hunt, Ruth Wilson, Ruth Ryan, Louise Storer, Lillian Schiek, Esther Ralston, Constance Zillgitt, Ruth Dobner and Louise Denyer of Los Angeles; Messrs. Francis Gordon, Frank Littell, Clarence Ralston, William Reitz, Lester Zillgitt, of Englewood, and William Pfeiffer.

## CIVIL WAR IN GERMANY

### MANY CASUALTIES IN FIGHTING AT HENNINGSSDORF BETWEEN SPARTACIDES AND SOLDIERS

(Special Service to Glendale Evening News)

BERLIN, March 23.—Karl Legien, head of the Berlin Labor Union, demanded the resignation of the entire cabinet of President Ebert late last night. The radical workers have decided to continue the general strike unless the government complies with their demands, it is said. Food is daily becoming scarcer throughout Germany. The meat supply is sufficient to last only until the middle of April.

Fifty persons were killed and seventy-five wounded in fighting at Henningsdorf between Spartacides and soldiers. The engagement developed into a regular battle in which tanks and machine guns were employed. The soldiers were at first repulsed but they attacked again with the support of an armored train, eventually, attacking the Spartacides to rout.

## DISORDER IN DUBLIN

### CASUALTIES RESULT FROM FIGHT BETWEEN SOLDIERS AND CIVILIANS IN IRISH CITY

(Special Service to Glendale Evening News)

DUBLIN, March 23.—One man and one woman were killed and several persons were injured in a clash between soldiers and civilians last night. Three hundred soldiers were parading through the streets jostling the crowds and pushing civilians from the sidewalks, it was said. When the civilians resented this, a general fight followed during which some of the soldiers fired into the crowds.

## BANK ROBBERY IN NEBRASKA

### YEGGMEN LOOT VAULT OF GREENWOOD FIRST NATIONAL BANK ESCAPING ON HANDCAR

(Special Service to Glendale Evening News)

LINCOLN, Neb., March 23.—Robbers last night blew open the vault of the Greenwood First National Bank escaping with \$104,300 in registered bonds and cash, according to word received here today. Two attempts were made to open the safe, which proved unsuccessful, the robbers contenting themselves with the contents of the vault. The yeggmens worked quietly. All telephones entering the town were cut. The robbers escaped on a handcar which they stole from a section house.

## COAL MINERS' WAGE SCHEDULES

### PRESIDENT WILSON SUMMONS MINERS AND OPERATORS TO JOINT CONFERENCE

(Special Service to Glendale Evening News)

WASHINGTON, March 23.—President Wilson today called the coal miners and operators to a joint conference to revise wage schedules on the basis recommended in the majority report of the Coal Commission recently. The president also issued an executive order effective April 1st abolishing all orders relative to coal prices issued prior to March 1st when the railways went back to private control. The effect of this order is to leave coal distribution and the control of exports under government supervision but to knock out all price regulation under the authority of the Lever Act.

## NEW SECRETARY OF STATE

### BAIMBRIDGE COLBY TAKES OATH OF OFFICE AFTER THE SENATE CONFIRMS HIS APPOINTMENT

(Special Service to Glendale Evening News)

WASHINGTON, March 23.—Baimbridge Colby today took the oath of office as Secretary of State after official notification of confirmation by the Senate of his appointment, had been received. The ceremony took place in the office of the Secretary of State.

It was reported that Colby had prepared a letter to Senator Lodge, chairman of the Foreign Relations Committee, demanding that Lodge make public the evidence taken while the committee was considering Colby's appointment.

## HARRY NEW IN GOOD HEALTH

### FEARS THAT HE MAY DIE FROM CONFINEMENT PRO-NOUNCED GROUNDESS BY PRISON AUTHORITIES

(Special Service to Glendale Evening News)

SAN QUENTIN, March 23.—Harry S. New, sent to San Quentin prison for life for the murder of Freda Lesser, has been in the prison hospital for two weeks under observation, it was learned today. No one would predict when New will be sent back to the Jute Mill. New is in the best of health, it was learned. Fears that he may be dying, as expressed by his mother in Los Angeles, were held to be groundless.

"New is contented and happy," said the men in authority. "He makes no complaints. He is not exactly a patient but is employed as a swamper in cleaning up the place. He was placed in the hospital merely for observation after his mother had declared he was in a dying condition."

## APPROACHING NORMAL

### RAINFALL FOR STORM 2.02 INCHES AND FOR SEASON 15.37 INCHES

T. W. Preston, 330 North Jackson St., informs the Evening News that his rainfall record for the recent storm is 2.02 inches, which brings the season's total to 15.37 inches. Last season at this time it was 12.19 inches. Mr. Bartlett's report differs a little from Mr. Preston's, it being 1.99 inches for the storm and 14.70 inches for the season, but the latter says this is nothing unusual. When he lived down on Adams Street there was more than an inch difference between him and Mr. Bartlett's records, and at La Crescenta; just a few miles north, the rainfall generally exceeds Glendale's by two inches or more. The seasonal average for Glendale is about 19 inches, says Mr. Preston. Pasadena's is 22 inches and that of Los Angeles only 15.70. He says the heaviest rainfall for any year since he began keeping the record was 29 inches in 1914.

A falling barometer this morning indicates a possibility of more rain in this storm, according to Mr. Preston, though he does not make a prediction to that effect, as the past season has shown that weather predictions, even by the government forecaster, have been very inaccurate, as was acknowledged recently by the man himself. He explained that work of that kind was much easier in Detroit, Mich., where he came from to the Los Angeles office, and in fact everywhere in the East, as there they have reports from the West, where all the storms originate, to guide them.

### CUT ON ARM WITH HOE WIELDED BY MEXICAN

There was quite a little disturbance Sunday afternoon near the west end of Oak Street. Gustave Hamann, who was one of a number of guests in the home of L. P. Tronsier, 559 Oak, was leaning on the fence dividing Tronsier's property from that of Antone Ramirez, a Mexican owning the place, just west of him, when he was attacked by the latter, who ran out of his house and prodded him with a hoe handle, at the same time calling him vile names, according to witnesses. Hamann invited him out in the street to "settle it like a white man," and Ramirez complied, bringing his hoe with which he cut Hamann twice on the left arm. Ramirez was arrested and bound over to appear for trial on March 31 before Judge Lowe.

## KITCHEN SHOWER

### MISS EVA GOULD GUEST OF HONOR AT PRETTY FUNCTION SATURDAY EVENING

Miss Eva Gould of 311 South Central Avenue was guest of honor at a pretty social affair and kitchen shower which took place Saturday evening at the home of Miss Marjorie Singleton at 318 West Wilson Avenue. Blue birds featured the decorations and suggested the next building to which the "shower" was to contribute.

Games were played, one of them being a guessing contest in which Miss Irene Jones won first prize and Mrs. Flora Pixley the consolation favor. A buffet supper was served at the close of the evening. When it was time for the shower the recipient was seated upon a cushion in the center of the room under a spread umbrella. Upon it the gifts were dropped, falling into her lap. She received some very nice remembrances.

Those present were: Misses Eva Gould, her mother, Mrs. Harold R. Gould, her sister, Helen Gould, Mrs. Flora Pixley, Miss Olive Pixley, Misses Alva and Irene Gervais, Miss Irene Jones, Miss Ruth Spafford, Miss Leila Whitehead, Miss Ann Cookman, Miss Nyda Dana, Miss Marcella Orth, Mrs. Pierson Hanning, Misses Sarah Stoneham and Myrtle Ball of Los Angeles. Mrs. G. B. Singleton, Miss Mildred Singleton and the hostesses, Miss Marjorie Singleton and Miss William Hobbs. Miss Eva Gould and her fiancé, Guy Pixley, are to be married some time next month.

Mrs. J. B. Whittemire has contracted for the remodeling of her residence at 1022 E. Wilson Ave. The alterations will cost in the neighborhood of \$1500.

## THE MAGIC HARP

### THE HARP STOLEN BY JACK FROM THE GIANT IS AT ROBERTS & ECHOLS STORE

Roberts & Echols' store with its Easter decorations and its fairy story window is attracting grown-ups as well as children this week. Mr. Roberts of this firm has arranged a very clever window which tells the story of Jack and the beanstalk. There is the little cottage and the pile of wood that Jack was chopping when he decided to climb up the beanstalk. There is the beanstalk, and it is the real beanstalk, too, for you can see the beans where the pods have burst open and the fact that they are candy beans doesn't make the whole thing one whit less fascinating. This beanstalk extends way up in the clouds where it ends at the Giant's beautiful castle.

But the most wonderful part of the exhibit is the golden harp, the very same harp that Jack stole from the Giant's castle. You may be skeptical about this being the original harp, but you can easily prove it for yourself. This wonderful harp plays itself and not only that but it tells its story, it answers questions and carries on a conversation. If you haven't heard this harp talk and sing you should surely do so. Most of the kiddies in town have seen the wonderful window and listened to the harp and while it is all for the benefit of the (Continued on Page 3)

## THE TIME TO BUILD

### J. R. BENTLEY SAYS "IF MONEY COMES FIRST NOT TO BUILD A HOME"

"If you were a man of moderate means, and family, and had all or most all of the money with which to build a home, would you build that home under the present high prices of materials and labor? I have been asked the above question a dozen and one times," said J. R. Bentley, general manager of the Bentley-Schoeneman Lumber Company, upon his return this morning from a big conference of retail lumbermen at Stockton, Saturday. "My answer is: If I thought more of my money than I did of my family, I would not build, but if I regarded my family higher than money, I would build at once."

Mr. Bentley stated that this country is three million homes short at the present time and that home building on a greater or less scale is in progress in practically every city and town in the country.

From the latest data available, the demand for lumber and building materials still exceed the supply by a large margin, and it does not look, to students of the building material business, that prices would decline for quite awhile to come.

Mr. Bentley states that after all the present price of lumber is not relatively high as compared with other commodities. Nor is the price so high that it should keep any one (Continued on Page 6)

## WILLIAMS HOME SOLD

### DAVENPORT, IOWA, MAN BUYS BEAUTIFUL ESTATE ON N. CENTRAL

M. L. Parker of Davenport, Ia., has purchased the Menzo Williams home at 1325 North Central Avenue for a consideration of \$25,000. Mr. Parker, who is one of the largest department store owners in Iowa, was touring California and happened to "drop in" to Glendale. While looking over the city he saw the beautiful Williams home and decided to buy it and give it to his daughter as a present if she would come to California to live. He sent a night message to his daughter who lives in New York and received in reply a wire to meet her and her family in Los Angeles Wednesday evening. Mr. Parker immediately made a deposit on the property and the papers are now in escrow. This important deal was made through Hal Rice of the H. L. Miller agency.

Mr. Williams is not to leave Glendale. He will build beginning at once on the two and a half acres adjoining this property on the north what he says will be a much finer home than the one he sold.

Glendale is not taking a back seat in the matter of attractions for people from all parts of the country.

## NEW PRESIDENT OF U. OF C.

### DR. BARROWS INAUGURATED WITH IMPRESSIVE CEREMONIES AT CHARTER DAY EXERCISES

(Special Service to Glendale Evening News)

BERKELEY, March 23.—After his inauguration as President of the University of California, Dr. David Prescott Barrows today spoke on "Academic Freedom," declaring: "Without freedom there can be no university."

Dr. Barrows' installation took place in connection with the Charter Day exercises commemorating the 52nd birthday of the institution.

"It is a task for a full grown man," said the message of President Benjamin Ide Wheeler, president emeritus, at the inauguration, "and we welcome to it one who is glad it is hard."

Governor Stephens likewise paid tribute to the new executive and outlined his ideals for the university. "I desire to express appreciation of the genuine unselfish patriotism of the man who is to lead this university for many years to come," declared the Governor. "Here, love of the flag and country must be taught to all that come from the ends of the earth and here unadulterated Americanism must be instilled in all those who come from American firesides and must inspire all those who leave these grounds to love our flag."

Dr. Barrows emphasized "freedom" as perhaps the greatest attraction of the university life. "I realize it is somewhat audacious for me to approach this issue so early in my existence because it is often charged the American university president is the greatest trespasser upon university freedom," he said, "and he is frequently mentioned as the tyrant of the academic man's destination, but I find myself prepared to admit this, that without freedom there can be no university."

## CALIFORNIA INDUSTRIES

Coincident with the inauguration of new policies and lines of action the title "Home Industry League of California" passes out of existence and henceforth the organization will be known as the "California Industries Association." The headquarters of the association will continue in San Francisco.

The change, following the recent election of Norman H. Sloane as manager of the organization, it is believed, will widen the scope of activity and usefulness and augment the benefits to the members and state. Briefly outlining the future policies of the association, Mr. Sloane summarizes as follows:

"The need for aggressive action to keep abreast of the coast-wide movement for bigger markets has prompted the adoption of a broader policy for a strong and efficient organization.

"A billion dollars is spent annually by California people for eastern made goods. California's purchases at grocery stores are 85 per cent of eastern made products.

"Some examples of shortsightedness: California, a great wheat state, sends away annually \$1,000,000 for biscuits and crackers. For milk, \$1,000,000, and nearly all the leather and furniture used in this state are purchased in the eastern market.

"This situation demands aggressive co-operative action. The California Industries Association is showing the way to our manufacturers and consumers. In its future policy the association does not advocate any slackening of effort to win the patronage of the California consumer. We believe the home market, as well as the outside market, can be best won by a dignified approach calculated to make the consumer proud of California's industries.

"The California industries are strong and independent. Their products are equal in quality and price to the best in the world and they are entitled to local patronage.

"This association through co-operation on a publicity serving basis and an appeal to civic pride and community welfare can help secure this local patronage in a manner which cannot be accomplished by any individual industry.

"As a result of the organization's efforts more than \$10,000,000 worth of California building material has been used in construction.

"Ten thousand men and women have pledged support to 'Made in California' products, price and quality being equal.

"Newspaper co-operation has been generous. Publicity is used to induce the dealer and consumer to buy at home. During the past year alone 3000 separate articles amounting to 21,000 column inches were published in California on the work of the organization.

"This is a notable record of the past and it is the purpose of the California Industries Association to far surpass these achievements, working all the time for all California as well as the individual member."

## ANNOUNCEMENTS

### ADVERTISEMENTS

## TO BEAT SPUD KINGS

MANY BACKYARD FARMERS PLANT POTATOES TO DEFTY PROFITEERS

If the indignation of consumers over the present price of potatoes and the high-handed methods by which the price was attained are the spur they promise to be, there will be large plantations of potatoes in Glendale the coming year. Indeed there are plenty of indications in the gardens appurtenant to the homes and in the vacant lots that such will be the case. Also, conspicuously displayed in the front line at the groceries, are seed potatoes with cards boldly lettered announcing their variety and price.

Dan Campbell plaintively says: "Can you think of an Irishman going without his potatoes, yet that is what we have been doing at our house until the prospect of guests drove us to buying a few." Mrs. Charles Turck is also boycotting the potato, declaring that she objects to being "done" by any man whether he be brown, yellow, white or black, and others are taking the same stand.

The cost of seed is no small item if any considerable space is to be planted. One backyard gardener, who had invested 40 cents in seed tubers and lightly carried home the little package, had curiosity enough to count her treasures and found she had just 18. Feeling that she must get some insurance against loss after such an investment she read up on preliminary treatment to prevent scab, the most wide-spread disease of the potato, and invested a few cents more in a fungicide. Bulletins issued by the Department of Agriculture mention two fungicides which can be depended upon—corrosive sublimate and the formalin solution. The last named is recommended as being less dangerous and equally effective. The instructions for treating with the formalin solution are to soak the whole seed in it for two hours and then let tubers dry and cut them, care being taken to prevent contamination by letting them come in contact with bags, boxes or bins where scabby potatoes have been kept. Eight fluid ounces of commercial formalin (otherwise known as 40 per cent formic aldehyde) when mixed with fifteen gallons of water, will be sufficient to treat 20 to 25 bushels of potatoes. It will thus be seen that only about one-half of one fluid ounce would be necessary to prepare one gallon of water and that would be sufficient to treat a good many potatoes for the home garden. Practically all druggists carry formalin for the purpose already put up in two-ounce bottles, marked to indicate the one-ounce, half and quarter-ounces. It is inexpensive and the gardeners who are using it consider an ounce of prevention is worth a pound of cure, especially with the poor quality of seed potatoes now on the market.

### THE MAGIC HARP

(Continued from Page 1)

children the grown-ups seem to be as much interested in it as the little folks.

Mr. Roberts, who before he became a prosaic merchant, was a magician and is well versed in that art, may know more about the harp than even Jack knew, but he remains discreetly silent.

This is the story the harp tells:

Long years ago I was a princess and I lived in a castle with my father who forbade me to leave the grounds without an escort, but as a child was fond of adventures, and oftentimes disobeyed him and took short trips into the nearby forest to gather wild flowers, hear the birds sing, and watch the squirrels at play.

One day I came across an old lady who appeared exhausted from the heavy load she was carrying. She beckoned me and asked me to aid her to her cottage, a short distance. We soon arrived, and after entering the doors were bolted as by unseen hands, and I was made a prisoner for many months.

One day we heard barking of dogs, and the tramping of horses in the forest. The old woman, whom I found was a witch, became scared when she saw that my father's soldiers were coming and changed me into the Magic Harp you now hold, and bid me play as the soldiers entered.

One soldier, who was Jack's father, was so enchanted with my music that after a little bargaining I was purchased from the old witch for a bag of gold. I was much pleased with my new owner and played for them many long evenings.

One day I heard a great noise as

of thunder and heard Jack's father say, "The Giant of the Clouds was coming, killing and stealing." In a few moments the roof was torn off and a huge hand gathered me with the hen that laid the golden eggs and other treasures and we were dumped into a huge bag and carried to the "Giant's" castle, where I was prisoner for years and made to play for the Giant, who was now my master.

You know well my release by Jack and return to his mother. Jack and his mother have been dead for years but their memories are still dear to the hearts of the children today, and I am all that is left to tell the story. If you like I shall play for you now.

### U. S. C. SORORITY DOINGS

Members of the sorority Beta Tau Alpha of the University of Southern California took a week-end hike to the mountain cabin of Dr. and Mrs. Hills near Carter's Camp where they were welcomed by host and hostess. There were 23 in the party which made the trip Friday afternoon and came back Sunday afternoon. Saturday they took a 15-mile hike to Sturtevant's and that evening put on a vaudeville show at the cabin to which the neighbors in the camp were invited. Dr. Hills is the head of the Department of Religious Education in the University. The Glendale girls in the party were Misses Margaret Lusby and Martha Ray.

The big annual reception to the whole University of Southern California took place one evening the latter part of last week at the Museum in Exposition Park, Los Angeles. Dr. and Mrs. Bovard were in the receiving line with officers of the student body and an orchestra from the College of Music furnished the program. The sorority, Beta Tau Alpha, attended in a body.

### SPRING FIRE BREAKS

Some of the city officials have pointed out that gardening is profitable for the life that now is and the life to come. They epitomize the matter in this way:

"More rain; more grass; more grass fires."

"More gardens, less grass; less grass fires."

The idea seems to be to make our fire-breaks early in the season by turning under the grass in parkways and vacant lots, which is now so luxuriant and juicy, to enrich the ground. The arguments presented are that the soil when thus prepared can be made to yield fine crops of potatoes and other valuable, high priced foods, and in the process of effecting this conversion the digestions of the workers will be vastly improved. Last but not least it would be a great protection to the city in mid-summer were these vacant lots and parkways in green growing crops or even lying fallow for next year, instead of covered with a strawlike growth ready to respond with a running flame when a cigarette is carelessly thrown, or when a stray bottle focuses the rays of the sun and starts

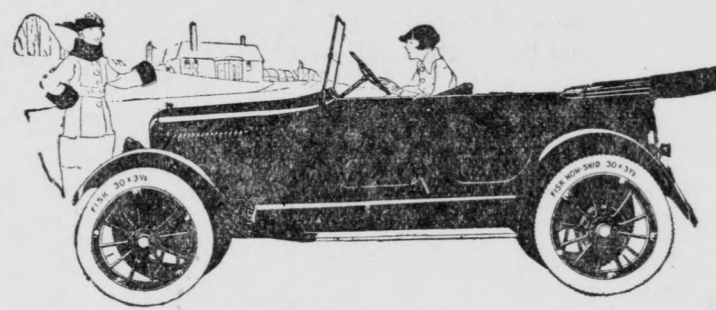

## New Triplex Springs Iron Out Rough Roads

ROUGH ROADS seem smoothed out by the wonderful new Triplex Springs of Overland 4.

Triplex Springs hold the wheels to the road, while the passengers ride in comfort. Their astonishing qualities have created an entirely new conception of light car riding ease.

This comfort is now obtainable in a light car with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by the Auto-Lite two-unit system. It has U. S. L. batteries. It is equipped with all the latest car essentials and conveniences.

## HAGINS IN JAPAN

FORMER GLENDALE RESIDENTS  
AGAIN TAKE UP MISSION-  
ARY WORK

Fred E. Hagin, who recently returned, accompanied by his wife and the eldest daughter, Edith, to the missionary field in Japan, has started the publication of a little paper in Tokyo. It has four pages of five columns each and will be issued quarterly, carrying to friends in America news of the work in Japan. The Hagins have a peculiar love for Glendale, as was evidenced by their spending most of their two last furloughs here and sending the children over from Japan to be educated in the Glendale schools.

Mr. and Mrs. Hagin were missionaries in Japan previous to their last trip, for just 20 years, and the two youngest children, Dan and Fannie, were born there. Eleven years ago Edith, the oldest child, was sent home from Japan to get her education in the Glendale grammar and high schools. After she graduated from G. U. H. S. she taught school in Arizona two years. Five and a half years ago Mrs. Hagin returned to beloved Glendale from Nippon land leaving Mr. Hagin to stay out his term alone till time for the next furlough. They were here three years and the children both graduated from Glendale High. Mr. Hagin joined them here in 1917, and after a few months was called to the pastorate of Centennial Christian church in Bloomington, Ill. Here he served till conditions were ripe for the return to Japan. Mr. and Mrs. Hagin and Edith took the journey, beginning their preparations in September last. Dan, who is preparing for a medical missionary, remained in this country to finish his studies in Northwestern University at Evanston, Ill., and Fannie is in school at Eureka. Mr. Hagin paid a brief visit to Glendale friends before the start. All three sailed on Thursday, November 6 from Seattle, Wash., on a Japanese steamship and landed in Tokyo November 21, making a very quick passage. A wireless message to Tokyo the day before arrival brought a crowd of old friends to meet the travelers. They were soon installed in a comfortable home and at once entered upon their work.

## CITRUS ORCHARDS

LEMONS A BIG CROP AND  
GROVES LOOK WELL. RAINS  
WILL HELP GREATLY

Representatives of the Sparr Fruit Company say that the recent rains will be a great help to orchardists whose groves have suffered from the drouth of the past two years but are now getting a good drink. In this connection some reproach is uttered against the growers who have not seemed to realize the situation or the fact that their trees required heavier irrigations than in ordinary years and who have niggardly withheld the needed water. Glendale groves had a big reputation for fine fruit a few years ago but that reputation is said to have declined because they have suffered for lack of care. The growers are compared to corporations that feel they must make just so much money out of their plants regardless of conditions and to make it they have had to rob the orchards of the water, the fertilizer or the fumigations they should have received. Now the orchards are betraying the neglect in deteriorated yields and quality of fruit. There has been too much of a tendency, it is declared, to invest the money that should have gone into these things in automobiles. However, there are exceptions in all trades and this is equally true of citrus growers.

The lemon crop in this vicinity is said to be exceptionally good, and orchards are looking very well. A lemon orchard is said to be easier to care for and keep in condition than an orange grove, it responds to care quicker and can more easily be restored. The market outlook is pronounced not very flattering. The closing of saloons and of restaurants in connection with wine riots has cut off some of the market demand and H. C. L. has caused retrenchment in the use of lemons as a garnish and accessory to servings of fish and many other foods. The same H. C. L. has had a tendency to reduce entertaining in

## WIRELESS AT HOME

**GLENDALE HIGH SCHOOL BOY  
WHO LEARNED RADIO ART  
FROM PRIVATE OUTFIT**

"Jake" Killgore, chief wireless operator on the oil tanker Argyle, plying between San Francisco and Seattle with intermediate stops and an occasional trip to San Pedro and San Diego, wrote his father, J. A. Killgore, of 507 Vine Street, recently, that all was well since the repair of the steamer's propeller shaft after it had drifted helpless for forty-eight hours. He enclosed a check for \$100 as a small gift to his beloved dad. Jason is one of the boys who became quite an expert wireless operator with years of practice when a schoolboy on a home-made outfit installed in an upstairs room. The mast bearing the aerials was set up in the front yard. He loyally obeyed the government's dismantling order though it was quite a blow to him. He was urged to take the examination for wireless operators as the government needed all they could get. He passed easily and was at once taken into the service and made a splendid record during the period of the war. His services were in demand after that and he made many trips to Panama and one to Japan. He is now contemplating a year or two layoff in order to attend a radio school and learn all the latest improvements in this important work.

W. L. Moulton of 514 South Brand Boulevard is home for a day or two. He is a buyer of fruit for produce houses and is away from home almost constantly, traveling thousands of miles every year. He buys the fruit on the trees, sometimes when the trees are only in bloom, and his eye and judgment are so well trained that he can size up a whole orchard or grove and tell very nearly what the fruit will be worth at picking time. The Moultons are now settled in the new location, 514 South Brand. They were occupying the daughter's home at 122 West Lomita Avenue when Mrs. L. B. Rambeau, then living in Mrs. Terrill's property at 514 South Brand, bought the place, and the two families simply exchanged dwelling places, both moving the same day.

LIGHTFUL WILD FLOWER  
HIKE SATURDAY**

Members of the Nature Club—and about twelve of them reported for the Saturday wild flower hike conducted by Francis M. Fultz, University of California Extension lecturer—say it was the finest one of the sort they ever enjoyed. It was rich in finds, for they returned with 42 different varieties secured in a comparatively short walk. All who went were enthusiasts and therefore had sharp eyes, which may account for their good luck. They took the East Broadway car to the city limits where it makes the turn towards Colorado and struck into the hills to the northeast following their crests. As the party went slowly it was not a difficult or fatiguing climb.

This is not the only interest of the Nature Club of which Mr. Ross, instructor in nature study in the city schools, is the head. Some evening this week, probably Wednesday, members will meet on the campus of the Intermediate to study a few of the familiar constellations and planets, later perhaps going inside to look at a few lantern slides related to the same subject. Mr. Hutchins, the bird whistler and mimic, is coming for the club, and Mrs. Harriet William Myers, secretary of the California Audubon Society, will give six lectures on birds at three different schools this week and next. This is the period in the year when children in the city schools make a specialty of studying birds and for that reason the effort was made to secure Mrs. Myers. She devotes her whole time to this work.

## MILLIONS IN IMPROVEMENTS BY PACIFIC FRUIT EXPRESS

The Pacific Fruit Express, which has one of its three large car building and ice manufacturing shops about two miles southeast of Glendale, along the Los Angeles river, will spend \$2,000,000 this year improving these three plants. It uses a million tons of ice a year of which 231,000 tons were manufactured in its own plants last year. It will add 4000 cars to its equipment this year at a cost of \$15,000,000. Several Glendale people work in the shops near here.

private homes and so cut down the use of those luxuries with which the lemon is classed. The summer market for lemons will, of course, be good, as it always is in the season of cold drinks.

The late rains will help all producers and make for prosperity. Citrus growers are said to be receiving 2 to 2½ cents per pound more than they did a few years ago but against that increase must be reckoned the greatly increased cost of labor, of fumigation, of fertilizer and other expenses incidental to production, while the fruit broker who depends upon the margin of profit between the buying and selling prices is up against the necessity of paying more for the fruit he handles, more for the boxes he uses and higher freight rates, thus increasing the speculative chances of his business.

## WATER OUTLOOK GOOD

**ENGINEER LYNCH SAYS OUR  
WELLS ARE SPLENDID AND  
WATER LEVELS HIGH**

Engineer Edward M. Lynch is more than busy these days with a number of jobs including the building of a water system for the Haines Canyon Water Company, and one for the La Crescenta Mutual Water Company. He occasionally takes a whirl at Beaumont, and is getting ready for the work to be done in Glendale which has been provided for in the \$260,000 water bond issue recently voted. Engineer Jones, who has been associated with him on some other jobs, is also working with him in the Glendale preliminaries of making measurements of wells and checking things in general.

Mr. Lynch is very enthusiastic over water conditions, particularly water levels. He says that 1500 gallons per minute can now be pumped at a depth of only 32 feet below the surface. Our wells are splendid, he declares, and all through the valley around here conditions are good. In some of the country east towards San Bernardino they are going to have some hard scratching, he says, because the water levels have not been restored. This is in part due to the fact that so much of the winter's rainfall came so late it will hardly be sufficient to restore to normal the underground supplies, but this does not affect Glendale.

## TRACK MEETS

**BOY SCOUTS TO BE GIVEN  
CHANCE TO EARN ATHLETIC  
BADGE OF MERIT**

Mr. Blanford, Director of Athletics in the City Schools, states that a decision has been reached to have track meets between the different schools but that these will be conducted in a little different manner for ordinary procedure. The events will be of the same character, but he proposes to turn them over to certain Boy Scouts who will direct them under his supervision. One of the badges the Scouts work for is a merit badge in athletics. To win it a boy must not only be pretty good in athletics but must write

compositions on various athletic subjects such as training, care of the body, etc. In addition to this the candidate has to plan a track meet and act as an official. Mr. Blanford is Scout master of Troop 4 and is greatly interested in the Boy Scout movement. He is therefore going to allow some of the Scouts to conduct the meets between the schools (under his direction) that they may have an opportunity to earn the coveted badge.

Mr. Blanford states that Mr. Campbell will coach the boys in Intermediate and Cerritos schools, and there will probably be a meet Saturday if the schools of the valley can be persuaded to come in. The boys in the different schools are working on the events and Mr. Blanford has been waiting until they should have had more practice before calling a contest.

## LONG WHARF DOOMED

**GLENDALE LOVERS OF FISHING  
MOURN COMING DESTRUCTION  
OF OLD LAND MARK**

T. W. Preston and wife made their usual journey to Santa Monica Saturday to enjoy some fishing. It was very poor this time, Mr. Preston said. He is somewhat depressed over the coming destruction of the Long Wharf, where he goes for his fishing experiences. It was built in 1892 when it was supposed Port Los Angeles, as it was then called, would be Los Angeles' harbor. It was then 6682 feet long but has been broken up by storms, and its length greatly decreased. It has been a famous fishing resort for many years and a number of Glendale disciples of Izaak Walton will mourn its passing. Strenuous efforts were made by some of the Santa Monica residents to save it, but the Railroad Commission decided it was a growing menace to shipping and ordered its dismantling. It is thought this will cause the disappearance of the Japanese fishing village at the mouth of Santa Monica Canyon which has been a constant menace to the peace of Santa Monica and the scene of some bitter fights.

## DISSOLUTION NOTICE

Glendale, California, March 20, 1920.

TO WHOM IT MAY CONCERN:

Notice is hereby given that the partnership heretofore existing between Georgia A. Shannon and Mrs. George A. Whitaker, doing business under the firm name and style of "Mission Spa" at 114 North Brand Boulevard, in the City of Glendale, County of Los Angeles, State of California, has been mutually dissolved. All the outstanding accounts to become the property of Mrs. George A. Whitaker, who is hereby authorized to collect the same, and all debts of said co-partnership are to be paid by said Mrs. George A. Whitaker.

The said Mrs. Georgia A. Shannon has sold her interest in said partnership business to Mrs. George A. Whitaker, and Mrs. George A. Whitaker will continue said business under the fictitious name of "Mission Spa."

ROADWAY LEVELED AT BROADWAY AND GLENDALE AVE.

The chuck holes between the rails of the P. E. tracks at the Broadway crossing of Glendale Avenue were filled up Saturday by the street repair gang, much to the satisfaction of motorists who have had their auto springs severely tested in bumping across.

### Personals

Mrs. Naylor Rogers of Eagle Rock was the guest of Glendale friends yesterday.

Mrs. A. S. Dodge of South Verdugo Road had an ill turn recently, but is very much better though still weak.

Frank Chase, former proprietor of the Glendale Press, is now located at Petrarra, between San Diego and the Imperial Valley.

Mrs. Addie Livingstone of 461 Myrtle Street is in Texas visiting her husband who is in business there at Fort Worth. She expects to be away for several weeks.

Paul Caldwell Worsley of 118 W. Chestnut has accepted a position as camera man with the Goldwyn Studio. He commenced work last week.

Mrs. J. T. Pope of Nashville, Ark., who has been visiting her son, of the Yager & Pope restaurant and confectionery, started on her return home yesterday.

Contractors C. W. Kent & Son began excavating for the new theater building on South Brand last Friday. Architect A. F. Priest prepared the plans and will supervise the work.

Residents of Glendale who have felt the pinch of high living costs will be pleased to learn from government reports that said cost declined one-sixth of one per cent during the month of February. Wonder if anybody noticed it?

Contractor F. W. Pig has just taken out permits for the building of two more modern bungalows. He has built 12 previously to these and all but one were sold before completion. He is building three in Hollywood now, also.

Edwin Virden, the druggist, is at the Good Samaritan Hospital in Los Angeles, where he underwent an intestinal operation about two weeks ago. He is said to be getting along nicely but will remain there until his recovery is complete.

Mr. and Mrs. E. W. Lyon of 214 North Louise had the pleasure Saturday of entertaining old friends from Lyons, Kansas, Mrs. E. E. Logan and daughter, Lucille, who are spending the winter in Los Angeles. Miss Lucille is attending U. S. C.

Thirteen members of Troop No. 4, Boy Scouts, had what is termed a "meeting hike" last Friday when they hiked to the top of the ridge and held their meeting there instead of in their Scout headquarters. Mr. Blanford, their Scout master, accompanied them.

Dr. L. C. Richardson of 1856 S. Brand Boulevard suffered a bereavement last week in the death of his mother, who passed away in Cedar Rapids, Iowa, after an illness of but a few days. The doctor's daughter, Miss Reba Richardson, who has been visiting her grandmother, is expected home soon.

Mrs. P. O. Rider, wife of the pastor of the Tropico Presbyterian Church, had the misfortune to suffer a bad fall from slipping on a wet sidewalk at the time of the last rain last week. She has been confined to her home ever since and though she is improving is still confined to her bed part of the time.

Mrs. Orpha Brown, who came to Glendale with her three children from Ironton, Ohio, and is staying at the home of her brother, Vinton M. Lynn of 456 West Doran, is having H. M. Wood build for her a five-room bungalow at 534 West Doran to cost \$3000. She will occupy it with her little family when it is completed, as she thinks Glendale an ideal place in which to live.

Architect Arthur G. Lindley is now working on plans for a seven-room, two-story frame residence for A. J. Madison on East Avenue 56; also for a Methodist Institutional church for Mexicans in Calexico. There will be three buildings in the group, an auditorium, church and parsonage. All the buildings are to be of frame construction with plastered exterior and composition roofing.

Mr. Sund of 1344 East Broadway, who is a new comer from Minnesota, has a fine garden and is having real delight in the Glendale climate. His wife is equally pleased and they are enjoying themselves thoroughly. Mr. Sund made a trial trip of investigation and liked the prospect so well that he returned to Minnesota, sold out his property there and came back to Glendale where he invested in the home he is now occupying.

J. P. Lukens of 103 North Verdugo Road is gradually recuperating from his severe illness. While not completely restored, he is able to get around some on his citrus ranch where lemon picking is now in progress. Mrs. Lukens states that because of the dry winter fruit did not grow much for a time but is now doing fine. No frost came this year to damage even slightly either lemons or oranges which for that reason are of exceptionally fine quality. One carload of lemons has already gone to market from the Lukens orchard.

## "BLUE MONDAY"

FINE AUDIENCE GREETED EVANGELIST AT CENTRAL CHRISTIAN CHURCH

"Blue Monday" night is always regarded as a critical time in a series of revival meetings. Rev. Clifford Cole was therefore much gratified to greet the excellent audience that assembled at the Central Christian Church last night. The choir was there in full force and there was fine singing, including a number by the male quartette of the church. The music, it is promised, will be a distinctive feature of the meetings.

Evangelist C. C. Root spoke on "Jesus, the Same Yesterday, Today and Forever," declaring Jesus is the same because sin is the same. Sin, he said, is not in the blood but is, according to the New Testament, "a transgressor of the law." Jesus Christ, he emphasized, came to earth to save the world from its sins, and his saving power is just the same today as it was 1900 years ago, because he has all authority in heaven and earth now as he had then. The gospel, he said, is the power of God unto salvation just as truly now as it was in Paul's time. Times and seasons, manners and customs change, but Jesus Christ is always the same. The speaker fortified every statement made with a quotation from the Scriptures.

### WASH CHANNEL FLOWING GOODLY STREAM

For the second time in three years Verdugo Wash is running a sizable stream of water into the Los Angeles River as the result of a rain storm. This shows that the ground is getting pretty well saturated from recent rains and augurs well for a bountiful crop year. The last time the Wash overflowed its banks was in February, 1914.

Revs. W. E. Edmonds and C. A. Cole attended a meeting of the Los Angeles Church Federation, which includes the Glendale churches, yesterday afternoon in the Y. M. C. A. building.

Mr. and Mrs. J. C. McQuiston of 346 Pioneer Drive have bought a cottage at Hermosa Beach and plan to spend many delightful days there this summer.

C. H. Crawford, who was endorsed by the Federation of Parent-Teacher Associations as a candidate for the High School Board of Trustees, has withdrawn his name from the list of candidates, according to information given out by Mrs. A. A. Barton, president of the Federation.

Harold Stroud, his sisters, Grace and Dorothy Stroud, and Miss Lucia Halstead, who were classmates of Lieut. Eugene Imler while he was a student at L. A. High, spent Thursday evening in the Imler home on Park Avenue, reviving memories of old times and getting acquainted with Mrs. Eugene Imler.

Mrs. Ira Tucker of San Dimas, who formerly resided in this city, is a guest in the home of her sister, Mrs. E. K. Daniels, and will be here for about two weeks. She has been calling on some of her old friends on Park Avenue, the Websters, Imlers and others whom she knew intimately as Miss Sallie Bor-thick and who were as delighted to meet her as she was to see them.

Mrs. E. S. Bucher of 610 West Broadway is living in eager anticipation of the arrival of her husband from Vladivostok. She received a wireless message the 10th of March that he had sailed for America, but how long it will take him to make the voyage she does not know. He has been at the Russian port nine months and went as acting medical director for the Central Division of the Red Cross.

# Free Easter Candy

It has been our custom every year to give a bag of Easter Candy free to each Glendale boy and girl, nor are we going to permit "old high cost of things" to prevent us doing so this year.

## SATURDAY, MARCH 27th

Is the day this year. Remember the day and tell your little friends

This nice bag of Easter Candy is absolutely free to the Glendale children, the only requirements are

### YOU MUST COME FOR IT YOURSELF

After 9 a. m. and before 4 p. m. on Saturday, March 27, and you must ask for but one bag, so there will be enough to go around.

We want you to see our gorgeous display of

## Easter Novelties Candies, Cards, etc.

and be doubly sure to see "Jack and the Bean Stalk" in our window, and those beautiful Golden Eggs laid by the Giant's hen—"Fe Fi Fo Fum—I smell the blood of an Englishman." Who, old or young, has not read the story of the Golden Harp that would play at its master's command? and how Jack ran away with it.

This Wonderful Harp will be on exhibition at our store a few days during the Easter Sale.

## DON'T FAIL TO SEE IT AND HEAR IT

A wonder of wonders. It will play for you and talk to you.

Remember the Date and Tell All Your Friends

### ENJOY SECOND TRIP

LIEUT.-COL. MILLER AND WIFE  
OF WASHINGTON, D. C., AGAIN  
GLENDALERS GUESTS

Lieut.-Col. Miller, wife and daughter, Evelyn, of Washington, D. C., who were guests three weeks ago of Harry S. Hooper and wife, 1439 East Colorado, whom they were neighbors and friends of in the Capitol City, are again with them, having returned from a visit to San Diego. They expect to stay until after Easter and meantime they are enjoying many auto trips with their host and hostess to scenic points in the Southland. Mrs. Hooper says they are so in love with Glendale that they are seriously contemplating a removal out here if Colonel Miller's work can be so arranged as to make the transfer possible. He is connected with a big government hospital in Baltimore, Md., and on this vacation has written accounts of some of the wonderful facial operations he assisted in while doing hospital work in France, these papers being sent to medical societies in the East.

### NOMINATIONS FOR CITY OFFICES CLOSED

Nominations for municipal offices to be voted on April 12th, closed at noon today with the following nominations on file:

City Treasurer, J. W. Stauffer.  
City Clerk, J. C. Sherer.  
Trustees (3 to be chosen).  
Ann Patrick Bartlett,  
James E. Peters,  
Claud O. Pulliam,  
Spencer Robinson,  
Dwight W. Stephenson.  
Frank J. Willett.

### DEATH OF HARRY CADOTT

Harry Cadott died at his home in Los Angeles yesterday at the age of 52 years. Funeral services will be held tomorrow at 3 p. m. at the Little Church of the Flowers, Pulliam & Kiefer in charge. Interment will be in Forest Lawn Cemetery. Mr. Cadott is survived by two brothers, Whitney Cadott of 121 West Palmer Avenue, and E. Cadott of Rossella Park, New Jersey; one sister, Mrs. Ida Rittenhouse, and a half-sister, Miss L. M. Packer, both of 203 West Chestnut Street. Deceased was born and reared in New Jersey, coming to California a few years ago.

Advertise it, or advertise for it in the Evening News.

### SORORITY HONOR

Miss Marjorie Imler has been chosen and elected to represent Lambda Chapter of the Sigma Kappa Sororities of California at the national convention of Sigma Kappas to be held at the Kansas State University at Lawrence, Kansas, in July. Her traveling companion will be Miss Miriam Burke of Berkeley, a close chum. Following the convention she will visit the sorority of the University of Colorado and other sororities including the chapters in Seattle, Washington, and Portland, Oregon. To cover the itinerary laid out in connection with this appointment will take most of the summer, but it is of a character to give Miss Imler a great deal of pleasure, and her friends rejoice over her good fortune.

### IMPORTANT CHRISTENING

Mr. and Mrs. Jack Thomas, who conduct the White Inn, are looking forward to an event of great importance to them, and of interest to their friends, viz., the christening of the infant son whom they adopted about a week ago. He is to be formally endowed with the name John Percival Thomas, Jr., the first Sunday after Easter, and Mrs. Thomas is having the joy of preparing beautiful christening robes for the occasion. The babe is but a month old and will be known as Jack Junior. As he has thrived from the moment they took him, his parents feel that he was destined for their home. Already he has twined himself around their heartstrings and convinced them that he is one of the most wonderful children of the century.

### RECENT RAINS MEAN MILLIONS IN CROPS

The rains of the last three days have been general over the state, though heavier in the Southland. They mean millions of dollars to the ranchers and orchardists. Those starting in on cotton culture are especially delighted at the fine start this gives them in the new venture. A goodly number of Glendale citizens are included in this list, some having holdings in Coachella and Imperial valleys, others in the Palo Verde region and San Joaquin Valley. California is destined to divide honors with the "Old South" in cotton raising and Arizona will be a close second when irrigation projects are a little further advanced. These last rains are very opportune in that they give all the summer crops a fine start and 1920 seems destined to be a banner year in soil products of all kinds.

### OFFICE BUILDING FOR DOCTOR BROTHERS

The Bentley-Schoeneman Company is putting up another office building on the front of their lumber yard property, at 214 East Broadway. It is to be of brick and 25x40 feet in dimensions. It is to be occupied about June 1 by Drs. C. M. and C. H. Taylor, brothers, who came to Glendale from Decatur, Ill., last fall and bought homes. There is to be a reception room for both of them in front and then a suite of rooms for each, back of this.

### FUNERAL OF MRS. ETHA ST. CLAIR

The funeral of Mrs. Etha St. Clair will be held Wednesday, 2 p. m., in the Little Church of the Flowers, with interment in Forest Lawn Cemetery. Pulliam & Kiefer are in charge. The Elks Lodge will conduct the services.

### DINNER PARTY

Miss Alice Gray Beach, of 633 N. Brand Boulevard, who is to leave about the first of April for Montana where she will spend some time visiting friends and relatives, entertained with an informal dinner at her home last evening. The guests were Mr. and Mrs. Noble J. Ripley, Mr. and Mrs. Sidney Simon, Mr. and Mrs. J. T. Beach, the Misses Dorothy Hobbs, Alberta Heisler, Lila Webster, Ernestine Lyon, Lila Shea, Irene Maul, Cecelia Lyon, Helen Beach, Pearl Pollock and the hostess, Miss Beach.

### GLEN EYRIE CLUB, O. E. S.

The Social Club of Glen Eyrie Chapter, O. E. S., was entertained Friday for its regular monthly luncheon and meeting at the home of Miss Franc Kinch at 328 North Brand Boulevard. The repast was delicious and was followed by a business session at which officers were elected as follows:

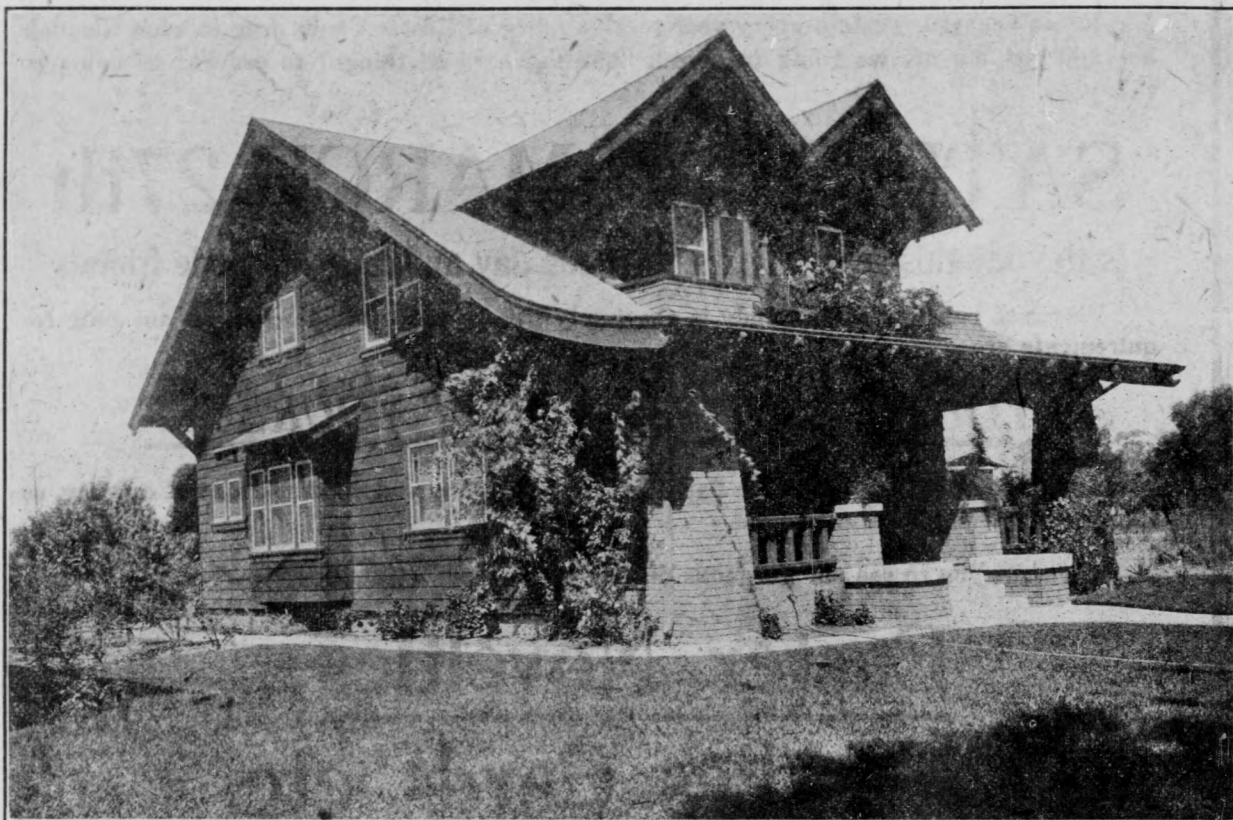

President, Mrs. Mayme Pollock.  
Secretary, Mrs. Mary Plume.  
Treasurer, Mrs. Claud Case.

Besides the business transacted a very pleasant social hour was enjoyed.

A news item from San Miguel last week stated that an old rusty safe had been dug up while excavating for a basement there and \$1000 in gold had been found inside the safe. The item was correct in every particular, except that the money was not in gold, and there was no money.

## Are You Tired Paying Rent?

Read over our list on this page and ask yourself if you can do better than to buy one of these homes.

We can give you such liberal terms on so many of these offerings that it's almost as easy to buy a home as it is to pay rent.

Why not make payments on a home and have something at the end of the year instead of paying out money month after month to a landlord?

Come in and let's talk it over. How large a house do you want; do you prefer a small lot or do you want plenty of garden space and fruit; are you partial to any certain section of the city? Tell us your wants and we will take you out at any time and show you the property we think will suit you. If we can't suit you, no harm done.

We can give you good values in income as well as residence property.

Business and residence lots that are advancing in value all the time. We loan money to build homes on lots we sell. Fire insurance in reliable companies at the same rate for twenty-two years—no war tax.

## PREVENTABLE DISEASE

### PRINCIPLES OF RIGHT LIVING NOT UNDERSTOOD SAYS DR. THOMASON

That it has been authentically reported that more than 75 per cent of the boys under 15 years of age in the Los Angeles public schools smoke cigarettes was the assertion yesterday of Dr. George Thomason, a member of the staff of White Memorial Hospital, before the physicians assembled at the Seventh-day Adventist medical convention for the Pacific Coast, now in session at the College of Medical Evangelists at Loma Linda. Dr. Thomason urged that the children be taught the evil effects of nicotine, and declared that Seventh-day Adventists are prepared to teach it by example as well as precept, since the denomination is free from the tobacco habit.

"That people perish for lack of knowledge probably never was so true as at the present time," said Dr. Thomason. "The colossal blunder of the age is the continued ignorance of the masses in reference to the simple principles of rational living. While man has triumphed over many of the devastating plagues of past ages, due to infectious disease, while small pox, cholera, and typhoid fever have become largely matters of purely historic interest, while diphtheria and meningitis have mostly ceased their terrifying ravages, the significant fact remains that the total annual world mortality continues about as great as ever.

"The recently issued report from Washington, D. C., of the mortality rate for 1918 showed that a million and a half persons died in the United States during that year, and it is significant that half of this number died of easily preventable diseases—in other words, of diseases largely due to erroneous and pernicious habits of living. The government report shows the striking fact that, excluding the deaths due to influenza, deaths from infectious diseases showed a marked decrease, while deaths from arterial disease, heart disease, bright's disease, acute nephritis and cancer showed a remarkable increase.

"The great principles of healthful living now before the world, are the only means of meeting the world's present need in this great field. Thousands of lives are annually sacrificed through erroneous habits of living. Every one of these great principles of rational and natural living has stood the test of time, and has never been found wanting.

"Looking out upon the world at large we find that by every possible means men and women are now en-

couraged to disregard entirely the ordinary rules of natural living, and are promised immunity from the consequences of physical wrong-doing. People are deceived into believing that they can indulge freely every physical desire and be immune from any evil consequences. Whether it is the subtle teaching which says habits of life are of no particular consequence, as all physical ills result from a disturbed vertebral relation, or that which says there is no reaping following the sowing, no penalty for violated law, the result is practically the same, for eyes are blinded and ears are stopped.

"For centuries in the past the devil has submerged and drowned men in the depths of alcoholic intoxicant. The results have been so appalling and revolting as to cause a powerful revulsion of feeling. The devil recognizes that he must be more gentle in his methods, at least for a time, and now seems to be directing his efforts more particularly bringing physical ills upon humankind through auto-intoxication, narcotic drugs and particularly nicotine. This program is none the less far-reaching in its disastrous effects. Only the godly physician can or will recognize the devil's efforts to gain the mastery of the soul through first gaining a mastery of the body. The Christian physician knows that the failure to appreciate that erroneous habits of living lead to a blunting of the sensibilities will result in closing the only avenue of communication between God and man, until the individual is hopelessly enmeshed in the devil's web of eternal ruin."

### THE TIME TO BUILD

(Continued from Page 1)  
from building a home or any other structure that is needed.

For instance, the average home would consume about 15,000 feet of lumber. Supposing the average consumer says, "It's too high, I think I'll wait until it goes down," and he waits a couple of years. The price goes down ten dollars a thousand, which only means a saving of \$150. But, he is out the use of his home during two years when it was badly needed, and during which time, no doubt, he paid excessive rent.

The proper time to build is when the structure is imperatively needed, and can be used.

Mr. Bentley reports a very large attendance at their retail lumbermen's conference and states that the chief topic of discussion was along the line of modern and economical methods of construction and what the retailer should do in the way of equipping himself to better serve the consumer in his com-

munity, and that the modern idea in building material merchandising is to talk about, advertise and sell the function of the materials, because that is really what the people are interested in. His office is equipped with hundreds of pictures and photographs, colored and otherwise, on display for the selection of the homebuilder.

### STEEL CHANNEL TRUCK TRACKS LAID

Steel channel tracks which would permit an enormous increase in the weight of loads carried by motor trucks are now being manufactured for highway use by one of the large steel companies and a few sections of the track will soon be placed down on one of the Connecticut highways.—Ohio Motorist.

### HOT WATER DISINFECTS SOIL

The need of a simple, practical method for disinfecting small quantities of soil in which to grow healthy seedlings for home garden planting, now made more emphatic because of the great expansion of tomato and other club work, has prompted the Bureau of Plant Industry of the United States Department of Agriculture to obtain more accurate data on the effectiveness of hot water as a means of ridding soil of the root-knot nematode, and certain parasitic fungi usually associated with root troubles. By means of a large number of tests it was found that an application of boiling water at the rate of seven gallons per cubic foot of soil in shallow benches practically eliminated the parasites. Applying this method to the needs of boys' and girls' garden club work, where the size of the seedbox or flat commonly used is 14 by 30 by 3 inches, four and one-half gallons of boiling water would be necessary to disinfect the soil in such a flat.

In all cases a marked increase in the percentage of germination and in the size and vigor of plants grown in the treated soil was observed. Substantially the same method of killing plant parasites in the soil has been used with some success in certain vegetable greenhouses; but the department's experiments serve to determine accurately the temperatures required and also the necessary quantities of hot water. The root-knot nematode can be eliminated from the soil contained in a four-inch pot by submerging it for five minutes in water brought to a temperature of 208 degrees Fahrenheit. In eight-inch pots the organisms are killed by an application of boiling water at the rate of about three quarts to a pot.

A real news item appeared in the Anaheim Herald the other day. An army corporal in detached service there lost a purse containing \$175, and it was found and returned to him. Still more startling, no reward would be accepted by the finder, who was a chauffeur.

Imperial Valley cotton raisers are alarmed at the spread westward of the boll weevil, which has already appeared in Arizona. Senator Phelan has assured them that Congress will take precautions to prevent the spread of the pest to California. We can almost hear the weevils giggle at the idea of Congress doing anything in time to stop them from getting into California or anywhere else they take a notion to go.

The Presbyterian ladies of Highland are going to raise money by selling aprons to ladies at prices that equal in pennies the number of inches their waists measure. Refreshments are to be served at this unique sale, and to make it more successful the refreshments should be served before the measuring is done.

A young couple who say they are walking from New York to California and back in 365 days, on a \$30000 wage, are now in this state finishing the first half of their journey. Who puts up the money for all these freak wagers we hear of from the East, anyway? We're beginning to get suspicious that it's only a talking point to attract attention and get a little free traveling money along the road.

The man at Highgrove who claims a ghost has been haunting his house, says the ghost nearly pushed him out of bed the other morning, and he believes its action had some message for him. It may have been only his wife giving him a kick, the message being that it was time for him to get up.

A prominent hotel man says Pasadena needs at least seven more large hotels. If the race keeps on as it has been for a few years past, children in American cities twenty years hence will have to look in the dictionary to find what the word "home" means.

Vermont Avenue is to be opened from Los Angeles to the sea, it is announced. This will make one more boulevard to be crowded with an endless parade of autos every Sunday, in the mad race to find some way to pass the time.

### HIGH SCHOOL NOTES

The baseball team of Glendale High went to Covina last Friday for a game with the high school boys of that city and won by a score of 7 to 2.

Miss Leah Myers, the newest teacher at Glendale High, is becoming acquainted with her pupils and getting along nicely with her new work. She is taking the classes in mathematics, formerly taught by Miss Elizabeth Hillis, who had to relinquish them on account of ill health caused by overwork.

Hoboes are still passing up Santa Ana in their travels, because 22 years ago some of them were put to work there. They never forget an affront of that sort.

### CERTIFICATE OF DOING BUSINESS UNDER FICTITIOUS FIRM NAME

THE UNDERSIGNED, HEREBY CERTIFIES that he is conducting business in the City of Los Angeles, County of Los Angeles, State of California, under the fictitious firm name and style of "NEW MEXICO PETROLEUM ASSOCIATION"; that said business is conducted under said name at 223 Los Angeles Investment Building, Los Angeles, California, and that said business so conducted at said place, is that of locating placer claims as agent for claimant, and sale of leases. That the fictitious firm of "NEW MEXICO PETROLEUM ASSOCIATION" is composed only of the following named person, who is the sole owner of said business, to-wit:

W. F. LAKE, residence address, 1237 South Bonnie Brae Street, Los Angeles, California.

IN WITNESS WHEREOF, I have hereunto placed my hand and seal at Los Angeles, California, this 3rd day of February, 1920.

W. F. LAKE.  
STATE OF CALIFORNIA, )  
( SS.  
COUNTY OF LOS ANGELES, )

On this 3rd day of February, 1920, before me ANNA E. BINGHAM, a Notary Public in and for the County of Los Angeles, State of California, residing therein, duly commissioned and sworn, personally appeared W. F. LAKE, personally known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal in said County the day and year in this Certificate first above mentioned.

(SEAL) ANNA E. BINGHAM,  
Notary Public in and for the County of Los Angeles, State of California.  
EVANS & PEARCE,  
Attorneys at Law.

Suite 1007 Van Nuys Building, Los Angeles.  
Filed March 2, 1920. L. E. Lampton, County Clerk; By C. C. Crippen, Deputy.
